RipPix Keygen

Add the desired effect to your pictures by just touching up your images! RipPix is a fully automatic and easy-to-use tool for all kind of picture adjustments. It consists of 20 presets with four different styles as well as 55 unique textures, 34 aged paper effects, and a randomizer. RipPix is highly recommended for image editing! RipPix is a free utility to add tear, rip, and aging effects to pictures. Its presets can also be used with other software by modifying the template settings. The application enables people to add the desired effect to their images by just touching up their pictures. It is an easy to use and highly effective tool for all kinds of picture adjustments. For just one touch and an easy -to-use interface, RipPix is the perfect tool for people to fix and touch up their images. Description: RipPix is a utility for adding the desired effect to your pictures by just touching up your images! RipPix is highly recommended for image editing! With RipPix, you can change the selected picture, set the options for the chosen frame and add texture, rip, or an aged paper effect. RipPix is used to improve the picture of a picture, smooth wrinkles, repair broken images, and correct color, or to make it look more aged. RipPix has 55 unique textures and 34 aged paper effects. You can work with both the photos inside the background image (foreground image), or with the separate two layers (Picture 1 and Picture 2). RipPix offers different input parameters for the fore and background layers. Some of these are the tint color, the tint strength, the exposure, the effect strength, the smoke strength, the strength and direction of the projection shadow, the temperature, the contrast, etc. On the other hand, you can also decide what kind of effect you want to add. You can adjust the color, the texture, the temperature, or you can also remove wrinkles by applying the ripsharp tool. Also included is a randomizer. This makes it possible to create a different image with an identical background or foreground. RipPix can be used for any type of file. You can also use ripPix as a plug-in for other software. All the time, you can customize the presets that you use with RipPix. If you change the settings for a template, you are automatically also changing the settings for the given file.

What's New In?

Apply built-in presets to add sepia effects to JPGs - Add sepia effects to JPG, PNG, and TIFF files - Add 15 photo transformation effects like tears, cuts and more. - Adjust more than 50 photo transformation effects parameters - Customize your own presets - Apply photo resizing effects including crop, free transform, resize, and resize zoom - Define your own presets with up to 20 layers of Photoshop actions, such as torn paper, watercolor, and brushed metal effects - Apply 300+ photo effects that include Vintage glamour, aged paper effects, aged photos, torn paper, and more. - Zoom in and apply various photo effects to make your pictures look larger, smaller, or different sizes - Upload a photo to include a new tint, saturation, contrast, exposure, and other adjustments. - Apply random effects when adjusting the transformation effects parameters - Randomize more than 50 transformations parameters to give your photos a completely new look - Photo Crop is designed to do more than crop your pictures; it can also resize, resize zoom, and rotate them easily. The Graffiti Paint program is a paint application for your computer screen that lets you apply cool graffiti effects to anything you draw and paints.
